

EXPERT >>>

IF YOU NEED AN UNBROKEN COLD CHAIN

WE'LL GIVE YOU BEST-IN-CLASS

For more than four decades, we have served the United Nations as one of their leading logistics suppliers. We take great pride in managing temperature-controlled shipments to the most challenging destinations and helping people in need.

Combined with our long-standing experience working with the pharmaceutical and healthcare industry, you get the full benefit from our experts' understanding of compliance, risk assessment, and safe handling of temperature-controlled shipments.

Your expectations and requirements define how we manage and handle your logistics. To excel is our aspiration.

Strategic warehousing

Our warehouses are strategically positioned for timely delivery and optimized distribution worldwide, providing regular and secure, uninterrupted cold chain storage and shipments – by air, ocean, rail, and road.

Moving fast while maintaining focus on the critical details is an integral part of how we do business. Your shipment's integrity we maintain through coordination and effective logistics planning all along the supply chain.

Your uninterrupted delivery is our service.

Part of your solution

For us, every challenge is an opportunity. To do more, better, and to learn. This 'can-do-attitude' has served us since 1975. We strive to be agile and always willing to do whatever it takes to deliver – whether by road, rail, ocean, air, or any other transportation mode.

That is how we help uncomplicate your world.
