

HUNGARY

Did you know
Hungary has a
history of solidly
impacting our
everyday lives?

From discovering Vitamin C, creating electric locomotives and color tv to inventing the modern computer and the ballpoint pen, Hungary has fathered several Nobel Prize winners and inventions that have significantly impacted industrial development and our everyday lives. The tradition continues as our local team provides efficient supply chain solutions within pharma healthcare, automotive logistics and the technology sector to bring goods around the world.

The Hungarian entrepreneurial mindset lives on today in the strong representation of advanced medical companies and startups. Likewise, the spirit of never giving up and fine-tuning details to perfection runs in the veins of our highly qualified team as they work hard to satisfy your requirements. Whether ocean, air, or road distribution services, they draw on their deep industry knowledge to provide you with the best possible solution and support for your business.

When it comes to handling temperature-controlled cargo, our GDP-certified experts know how to keep their cool. Providing temperature-controlled warehouse storage and internal processes that add that extra layer of security, you can be confident your goods receive utmost care and attention.

The integrity of your supply chain is our priority. Whether it's cold, ambient or room temperature, we are with you all the way - from dispatch to delivery.
