USING INNOVATION TO UNCOMPLICATE YOUR WORLD.

Now your most complex shipments can become a little less complicated with our latest innovation: The ATBneo. Among others, the new and improved version includes an electronic locking device making the access seamless and ensuring secrecy throughout the transportation.

Working with innovative customers, requires a combination of know-how and entrepreneurship to offer the best solutions. Being a group of passionate entrepreneurs and problem-solvers, the ATBneo is one of those inventions.

Reach out to us and we will create a solution, that fits your needs the best.

WHY CHOOSE THIS SOLUTION:

- **Gullwing doors allow barrier-free access all around the car**
- **Built-in collapsible ramps also allow the loading of cars with low ground clearance**
- **Manually operable winch for non-running cars or models available**
- **Heavy duty rollers on the front side for convenient maneuvering of the container**
- **Individual privacy screen available on request (e.g. for customs inspection in public areas)**
