

CTPAT Program

Corporate Statement of Support

Customs Trade Partnership Against Terrorism ("CTPAT") is a voluntary public- private sector partnership program designed to achieve the highest level of cargo security through close cooperation between U.S. Customs and Border Protection ("CBP") and the principal stakeholders of the international supply chain such as importers, carriers, consolidators, licensed customs brokers, and manufacturers.

TransFair North America International Freight Services LLC, dba Scan Global Logistics ("Scan Global Logistics") is a proud member of the CTPAT program. As a CTPAT partner, Scan Global Logistics works with CBP to protect the supply chain, identify security gaps, and implement specific security measures and best practices. All Scan Global Logistics employees, contractors, service providers and visitors are expected to comply with the CTPAT's Security Criteria as well as any policies, procedures, and instructions issued by Scan Global Logistics.

We also strongly encourage all our business partners to participate in the CTPAT program and collectively we can help ensure our customers the safest and most expeditious cross-border supply chain, while also assisting in the worldwide campaign to stop terrorism.
