New airbridge between China and Australia

May 05, 2020 | [Share](#)

Medical supplies air shipment loading on aircraft.

In recent weeks Scan Global Logistics has transported millions of N95 masks, medical products and Personal Protective Equipment (PPE) China to Australia, establishing a regular airbridge via charter services for high volume Air movements between the two countries.

"We are very happy to be part of the global COVID19 response, facilitating movement of much needed supplies. We are well placed to respond to further demands and look forward to the challenge" says Rob Erskine.

If you want to hear more about the solution, please reach out to Rod MacPherson or Rob Erskine.
