

IMPORTANT NOTICE!

DECEMBER 01 2021

ROAD TRAFFIC INFORMATION:

Information concerning Transport capacity

To our customers,

The capacity situation in Europe continues to be challenging and no signs of relief could be noticed on the market during November.

The lack of both drivers and loading capacity remains to be the main factors effecting cost.

Dependent on the continued difficult market situation the capacity surcharge will remain and be applied on all markets.

Below is the updated capacity surcharge that will be applied and valid from 2021-10-01 to 2021-12-31:

Min 100	500	1000	2500	5000	7000	10000	15000	20000	FTL	kg
14,74	3,69	2,76	1,94	1,39	1,20	1,09	0,99	0,91	165	EUR/100kg
