August 2022

ROAD TRAFFIC INFORMATION:

Situation regarding transport capacity for some specific markets

To our customers,

During the summer it has, as always, been a challenge to find the right capacity to secure the transport need of our customers. The vacation period tends to be longer for every year and it is also a challenge to find the right number of skilled drivers and trucks that return to their respective markets.

We can see continuous challenges and our capacity surcharge will remain unchanged, with exceptions for France, Spain and Portugal.

On these markets there are new and old challenges. One new are higher energy costs for the intermodal set ups. An old is that when the length of the transport are longer, the bigger impact on the lack of drivers.

As of 1st of September 2022 we will have a separate capacity surcharge for those markets (France, Spain and Portugal):

Min	500	1000	2500	5000	7000	10000	15000	20000	FTL	KG
100										
24,69	8,70	5,84	3,93	2,97	2,98	2,46	1,82	1,31	238	Euro/100kg

For the rest of the markets it remain as before:

Min	500	1000	2500	5000	7000	10000	15000	20000	FTL	KG
100										
16,95	4,24	3,17	2,23	1,40	1,21	1,11	1,00	0,92	185	Euro/100kg

Best regards, SGL Road AB
