

IMPORTANT NOTICE!

MARCH 28, 2023

EASTER PERIOD 2023

Dear Valued Customer,

The two Easter celebrations are approaching, and SGL Road would like to share the following information connected to the same.

Regarding the Catholic Easter:

No big challenges are expected at the moment and SGL Road, for the same reason expects business as usual. However, it is always good to have a close dialog with your normal SGL Road speaking partner to get the latest updates.

Regarding the Orthodox Easter:

Some drivers are going home to celebrate Easter. The same can lead to an enhanced situation of shortage of drivers. Current planning and prediction, however, show that SGL has a solid set-up to cover for shortage during the period.

Still, we always recommended to have some extra communication during this period.

SGL will inform further if there is anything changing regarding the situation over the Easter period.

Best regards,

Oskar Sandström
National Traffic Manager
Road Sweden
