

## Scan Global Logistics earns EcoVadis Gold for the second time, now ranking in the top 3% globally

22 Sep, 2025 | [Share](#) [🔗](#)

For the second consecutive year, we have been awarded the EcoVadis Gold Medal 2025 for our sustainability performance. This places us among the top 5% of more than 150,000 companies across 120 industries and 180 countries — and with a score of 80, it ranks us in the top 3% globally.

The EcoVadis Gold rating is an appreciated recognition of Scan Global Logistics' work to decarbonise our customers' supply chain through an extensive catalogue of low-carbon logistics services and supportive efforts. Maintaining our EcoVadis Gold medal underscores our ESG standards and transparent business practices, creating a foundation for making sustainability a commercially viable advantage in the marketplace, benefiting our customers and advancing a net-zero future.

### All-time highest rating

In 2025, we are proud to have reached our highest score to date — 80 points (compared to 74 in 2024) in our fourth year of participating in the EcoVadis assessment. The Gold medal places us among the top 5 % of all companies assessed, while the score of 80 places us in the top 3 % globally across all industries. Our continued improvement and strategic focus on sustainability are reflected in our rising EcoVadis score, which has increased from 58 points in 2022 to 80 points in 2025, placing us among the top-performing companies.

### Continued commitment to climate action

Across our organisation, we remain committed to tangible climate action. We already enable customers to reduce emissions today by offering low-carbon logistics solutions to reduce emissions from transportation by 50% to 98%, such as switching to sustainable biofuels to immediately cut CO2 emissions or optimising their logistics set-up. These actions, combined with our science-based net-zero targets, demonstrate our role as a trusted partner in building more sustainable supply chains. The achievement also reflects the dedication of our colleagues worldwide, whose efforts across multiple areas over the years have made this possible. At the same time, the rating provides a valuable snapshot of our progress on our ongoing sustainability journey.

#### About EcoVadis

EcoVadis is a global leader in business sustainability assessments. The ratings are based on international sustainability standards, such as the Ten Principles of the UN Global Compact, the International Labour Organization (ILO) conventions, the Global Reporting Initiative (GRI) standards, and the ISO 26000 standard. The ratings provide an evidence-based analysis of performance and an actionable roadmap for continuous improvement.

The EcoVadis assessment evaluates 21 sustainability criteria across four core themes:

- Environment
- Labor & Human Rights
- Ethics
- Sustainable Procurement
