GROUP STRUCTURE

SGLT HOLDING

The figures in this section comprise the combined financial performance of SGL International A/S and TransGroup Global Inc., including their respective subsidiaries, constituting the combined group SGLT Holding II LP ("SGLT Holding").

The figures for SGLT Holding are included because they highlight the performance to which attention should be given when understanding the current combined performance and predicting future combined performance supporting the issued senior secured bonds through SGL International A/S.

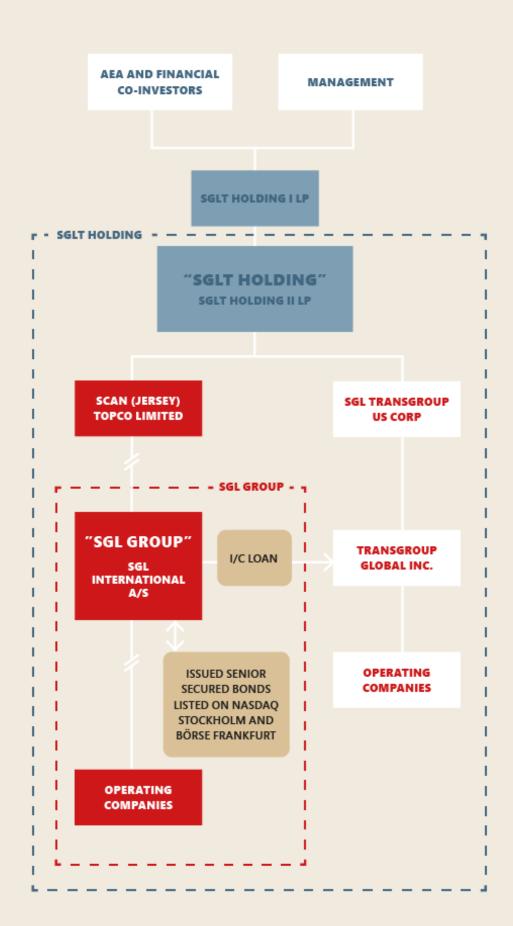

Reporting currency for SGLT Holding is USD.

SGL GROUP

SGLT Holding II LP owns SGL International A/S (SGL Group), and the ultimate owner is SGLT Holding I LP. SGL Group includes SGL International A/S and all its subsidiaries.

On 31 March, 2023 SGL International A/S as issuer (together with SGL TransGroup US Corp and their respective subsidiaries) has issued EUR 250 million senior secured floating rate bonds within a framework of EUR 315 million of which EUR 58 million is repurchased. A further total of EUR 300 million senior secured fixed rate bonds is issued within a framework of EUR 350 million. Hence, on a gross level, a total of EUR 550 million is issued within a framework of EUR 665 million. Excluding bonds repurchased by SGL International A/S, a total of EUR 492 million is issued. Further, SGL International A/S has issued EUR 42 million of subordinated unsecured PIK fixed interest bonds.

Reporting currency for SGL Group is DKK.

FINANCIAL PERFORMANCE

HIGHLIGHTS FOR THE FIRST QUARTER OF 2023

The beginning of 2023, was impacted by a continued normalising of the market conditions, following the high activity levels driven by market disruptions and capacity constraints seen in 2021 and first half of 2022. The change in market conditions has enabled SGLT Holding to leverage on its entrepreneurial business model in providing complex solutions to its customers with success, and delivered a 5% increase in gross profit compared to Q1 2022.

Compared to the strong performance in Q1 2022, SGLT Holding experienced a minor decrease in EBITDA before special items in the first three months of 2023, which were in line with our expectations. EBITDA before special items decreased 4% in constant currencies. The decrease in EBITDA before special items was driven by the SG&A cost base, which has been built up to cater for the increased activity levels in 2022 and to further support the continued growth following execution of the Vision 2027: 1-3-5 strategy. Further, are the current market conditions, impacted by normalisation of freight volumes, expected to recover during 2023 with volumes picking up from current levels.

FINANCIAL PERFORMANCE FOR THE FIRST QUARTER OF 2023

REVENUE

Revenue amounted to USD 632 million for the first three months of 2023, a decrease of 30% compared to the strong performance of the first three months of 2022. The decrease was due to a decrease in freight volumes and lower freight rates as a consequence of the normalisation of the freight market. The first three months of 2023 includes a negative impact from FX translation of approximately USD 25 million.

The decrease in activity levels was experienced across all regions, especially Air & Ocean activities in Denmark, Asia and North America.

GROSS PROFIT

Gross profit amounted to USD 129 million for the first three months of 2023; an increase of 5% compared with the first three months of 2022, including negative impact from FX translation of approximately USD 5 million.

The increase in gross profit is driven by a strong business performance, despite the lower activity level on the freight market resulting in lower revenue. Through our diversified business model we have been able to mitigate an impact to gross profit and sustain performance. Following this we have seen a significant increase in gross profit margin to 20.4%; equivalent to an increase of 6.8% point compared to the same period last year. A result of our operating model in which we naturally will increase margins in a declining rate environment. We expect as the market normalises further the margin will gradually decrease as contracts are renewed. The development is mainly driven by North America, North Europe and Scandinavia.

SG&A COSTS

SG&A costs amounted to USD 74 million for the first three months of 2023; impacted by a positive FX translation of approximately USD 3 million, resulting in an increase of 17% compared to the first three months of 2022. The SG&A costs increased as expected compared to Q1 2022 and was primarily due to an increase in employees driving higher salary expenses as a result of greenfield and M&A activities. Furthermore, to enable upscaling the business for future growth and activity in line with our strategy. The conversion ratio based on Adjusted EBITDA decreased from 45% in first three month of 2022 to 39% in the first three months of 2023.

UNAUDITED

ADJUSTED EBITDA

Adjusted EBITDA amounted to USD 50 million for the first three months of 2023; compared to USD 55 million same period last year. The decrease in revenue and increase in SG&A is largely offset by the development in gross profit. Adjusted EBITDA margin increased 1.8% point compared to same period last year. The increase from GP margin was not fully carried through due to the sustained SG&A cost base. EBITDA before special items amounted to USD 55 million; compared to USD 60 million same period last year. EBITDA margin before special items increased 2.1% point compared to same period last year.

DEPRECIATION AND AMORTISATION

Depreciation and amortisation amounted to USD 16 million in 2023 compared to USD 11 million in 2022. The main driver for the increase was amortisation from acquisitions and increased amortisation on IT costs. Investments in IT were increased to secure the infrastructure necessary for continued long-term growth and scalability from the Vision 2027: 1-3-5 strategy.

SPECIAL ITEMS, NET

Special Items, net, amounted to a cost of USD 2 million for the first three months of 2023 mainly driven by greenfield activities and M&A related costs.

FINANCIAL PERFORMANCE

SGLT HOLDING

OPERATING PROFIT (EBIT)

Operating Profit (EBIT) amounted to USD 37 million for the first three months of 2023 compared to USD 46 million same period last year.

FINANCIAL ITEMS

Financial items amounted to net expenses of USD 19 million for the first three months of 2023 compared to an expense of USD 14 million the same period last year. The development was mainly driven by interest expenses from issued bonds and by foreign exchange losses on the bond debt in EUR.

TAX

The effective tax rate came to 44.4% for the full year 2022, compared to 25.0% for last year. The tax rate in 2023 is negatively impacted by non-deductible interest expenses.

CASH FLOW

Cash flow from operating activities was positive with USD 46 million in the first three month of 2023; a development positively affected by EBIT, supported by cash flows from continuously streamlined net working capital.

CAPITAL STRUCTURE

Equity attributable to the parent company was USD 249 million. The total equity ratio was 19.2% as per 31 March 2023. Compared to 31 March 2022 the equity ratio increased 3.4% point driven by strong results in the last 12 months.

NET INTEREST-BEARING DEBT (NIBD)

Net interest-bearing debt (NIBD) was USD 148 million excluding lease liabilities and PIK-note as of 31 March 2023 (31 March 2022: USD 290 million excluding lease liabilities and PIK-note). The positive development in NIBD was mainly driven by the increase in the company's net cash position of USD 125 million deriving from improved net working capital position. The total liquidity reserve was USD 457 million end of March 2023 (March 2022: USD 332 million).

NET WORKING CAPITAL

Net working capital improved with USD 25 million for the first three months of 2023. Total NWC position was USD 71 million 31 March 2023. The improvement in net working capital is primarily related to the lower freight rates and activities within the Air & Ocean segment compared to the record high freight rates and activities in Q4 2021.

OUTLOOK 2023

SGLT HOLDING & SGL GROUP

OUTLOOK 2023

Outlook remains unchanged based on the expectations described in the outlook published in the Annual Report for 2022. Our outlook assumes a continued impact on the freight market from change in consumer demand. This in combination with inventory level reduction is however, expected to normalise during the second half of 2023 with volumes picking up from current levels.

However, the macroeconomic environment, higher inflation, decreasing consumer demand and continued uncertainties following the war in Ukraine remains an uncertainty to our outlook for 2023.

LONG-TERM FINANCIAL TARGETS

OUTPERFORM MARKET GROWTH

• Achieving a total of USD +5 billion in revenue (SGLT Holding level)

• Overall organic growth target being doubledigit on major trade-lanes and markets, powered by global growth initiatives driving growth across regions

TOP 3RD AMONGST THE GLOBAL PEERS IN PROFITABILITY

• EBITDA margin before special items and excluding IFRS 16 accounting of at least 7% by 2027

OTHER FINANCIAL TARGETS

• Improving conversion ratio (Gross profit to EBITDA before special items and excluding IFRS 16 accounting)

• Strong positive cash generation The targets are based on the assumptions of stable global economic development and assume exchange rates are unchanged from current levels.

FORWARD-LOOKING STATEMENTS

The Interim Report contains forward-looking statements concerning SGLT Holding and SGL Group's financial position, results of operations and potential exposure to risks and statements expressing Management's expectations and assumptions. Such statements are subject to risks and uncertainties as several factors, many of which are beyond SGLT Holding and SGL Group's control, may cause the actual development and results to differ materially from expectations contained in the Interim Financial Report.

Refer to the Annual Report of SGL International A/S for disclosure of additional factors and risks that may impact future results.

UNAUDITED

SIMPLIFIED STRUCTURE

FINANCIAL PERFORMANCE

HIGHLIGHTS FOR THE FIRST QUARTER OF 2023

The beginning of 2023, was impacted by a continued normalising of the market conditions, following the high activity levels driven by market disruptions and capacity constraints seen in 2021 and first half of 2022. The change in market conditions has enabled SGL Group to leverage on its entrepreneurial business model in providing complex solutions to its customers with success, and delivered a 4% increase in gross profit compared to Q1 2022.

Compared to the strong performance in Q1 2022, SGL Group experienced a minor decrease in EBITDA before special items in the first three months of 2023, which were in line with our expectations. EBITDA before special items decreased 9% in constant currencies. The decrease in EBITDA before special items was driven by the SG&A cost base, which has been built up to cater for the increased activity levels in 2022 and to further support the continued growth following execution of the Vision 2027: 1-3-5 strategy. Further, are the current market conditions, impacted by normalisation of freight volumes, expected to recover during 2023 with volumes picking up from current levels.

FINANCIAL PERFORMANCE FOR THE FIRST QUARTER OF 2023

REVENUE

Revenue amounted to DKK 2,990 million for the first three months of 2023, a decrease of 31% compared to the strong performance of the first three months of 2022. The decrease was mainly due to a decrease in freight volumes and lower freight rates as a consequence of the normalisation of the freight market. The first three months of 2023 includes a negative impact from FX translation of approximately DKK 40 million.

The decrease in activity levels was experienced across all regions, especially Air & Ocean activities in Denmark and Asia.

GROSS PROFIT

Gross profit amounted to DKK 625 million for the first three months of 2023; an increase of 4% compared with the first three months of 2022, including negative impact from FX translation of approximately DKK 30 million.

The increase in gross profit is driven by a strong business performance, despite the lower activity level on the freight market resulting in lower revenue. Through our diversified business model we have been able to mitigate an impact to gross profit and sustain performance. Following this we have seen a significant increase in gross profit margin to 20.9%; equivalent to an increase of 7.1% point compared to the same period last year. A result of our operating model in which we naturally will increase margins in a declining rate environment. We expect as the market normalises further the margin will gradually decrease as contracts are renewed. The development is mainly driven by North Europe and Scandinavia.

SG&A COSTS

SG&A costs amounted to DKK 342 million for the first three months of 2023; impacted by a positive FX translation of approximately DKK 5 million, resulting in an increase of 20% compared to the first three months of 2022. The SG&A costs increased as expected and was primarily due to increased headcount driving higher salary expenses as a result of greenfield and M&A activities and upscaling the business for future growth and activity in line with our strategy. The conversion ratio based on EBITDA before special items decreased from 52% in first three month of 2022 to 45% in the first three months of 2023.

EBITDA BEFORE SPECIAL ITEMS

EBITDA before special items amounted to DKK 283 million for the first three months of 2023; compared to DKK 315 million same period last year. The decrease in revenue and increase in SG&A is largely offset by the development described under gross profit.

UNAUDITED

EBITDA margin before special items increased 2.2% point compared to same period last year. The increase from GP margin was not fully carried through due to the sustained SG&A cost base. EBITDA before special items excluding the impact of IFRS 16 Leases amounted to DKK 247 million; compared to DKK 286 million same period last year. EBITDA margin before special items excluding the impact of IFRS 16 Leases increased 1.7% point compared to same period last year.

DEPRECIATION AND AMORTISATION

Depreciation and amortisation amounted to DKK 87 million in 2023 compared to DKK 57 million in 2022. The main driver for the increase was amortisation from acquisitions and increased amortisation on IT costs. Investments in IT were increased to secure the infrastructure necessary for continued long-term growth and scalability from the Vision 2027: 1-3-5 strategy.

OPERATING PROFIT (EBIT)

Operating Profit (EBIT) amounted to DKK 302 million for the first three months of 2023 compared to DKK 248 million same period last year.

SPECIAL ITEMS, NET

Special Items, net, amounted to an income of DKK 106 million for the first three months of 2023 driven by the sale of Horizon Cargo Inc. to SGLT Holding.

FINANCIAL PERFORMANCE

SGL GROUP

FINANCIAL ITEMS

Financial items amounted to net expense of DKK 112 million for the first three months of 2023 compared to an expense of DKK 55 million in the same period last year. The development was mainly driven by interest expenses from issued bonds and foreign exchange losses on receivables from related parties in USD.

TAX

The effective tax rate came to 24.2% for the full year 2022, compared to 24.4% for last year. The tax rate in 2023 positively impacted by a non-taxable gain on the sale of Horizon Cargo Inc. to SGLT Holding but negatively impacted from non-deductible interest expenses.

CASH FLOW

Cash flow from operating activities was positive with DKK 192 million in first three months of 2023 positively affected by EBIT.

CAPITAL STRUCTURE

Equity attributable to the parent company was DKK 1,323 million. The total equity ratio was 16.8% as per 31 March 2023. Compared to 31 March 2022 the equity ratio increased 3.9% point driven by strong results in the last 12 month.

NET INTEREST-BEARING DEBT (NIBD)

Net interest-bearing debt (NIBD) was DKK 118 million excluding lease liabilities and PIK-note as of 31 March 2023 (31 March 2022: DKK 810 million excluding lease liabilities and PIK-note). The positive development in NIBD was mainly driven by the increase in the company's net cash position of DKK 849 million deriving from improved net working capital position. The total liquidity reserve was DKK 2,836 million end of March 2023 (March 2022: DKK 1,987 million).

NET WORKING CAPITAL

Net working capital improved with DKK 149 million for the first three months of 2023. Total NWC position was DKK 63 million 31 March 2023. The improvement in net working capital is primarily related to the lower freight rates and activities within the Air & Ocean segment compared to the record high freight rates and activities in Q4 2021.

SGL GROUP

NOTE 7 – GENERAL ACCOUNTING POLICIES

The interim financial report, comprising the consolidated financial statement, has been prepared in accordance with IAS 34, Interim Financial Reporting, as adopted by the European Union and Swedish disclosure requirements for interim reports of listed companies.

The accounting policies in the interim financial report follows the same accounting policies as for the Annual Report for 2022 except for any new, amended or revised accounting standards and interpretations (IFRS) as described below.

New accounting regulation adopted in 2023

SGL Group has implemented the latest International Financial Reporting Standards (IFRS) and amendments effective as of 1 January 2023 as adopted by the European Union.

All amendments to the International Financial Reporting Standards (IFRS) effective for the financial period have been implemented as basis for preparing the consolidated financial statements and notes to the statements.

None of the implementations have had any material impact on the statements or notes presented.

New accounting regulation not yet adopted

The IASB has issued a number of new standards and amendments not yet in effect or endorsed by the EU and therefore not relevant for the preparation of the Q1 2023 Interim Financial Report.

None of these are currently expected to carry any significant impact on the financial statements of the SGL Group when implemented.

Material accounting estimates

In connection with the preparation of the interim report, Management makes material accounting estimates, assessments and assumptions which form the basis of the presentation, recognition and measurement of SGL Group's assets and liabilities for accounting purposes.

There are no significant changes in the material estimates from the assessments presented in SGL International A/S⁻ Annual Report 2022.

MANAGEMENT STATEMENT

| The Board of Directors and Executive Management have today considered and approved the interim financial report of SGL International A/S (page 14 to 25) for the period 1 January to 31 March 2023. | Executive Management | |
|--|---------------------------------------|------------------|
| The interim financial report has been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the European Union and Swedish disclosure requirements for interim financial reports of listed companies. The interim financial report has not been reviewed or audited by the company auditor. | Allan Dyrgaard Melgaard <i>CEO</i> | Claes Brø CFO |
| In our opinion, the interim financial report gives a true and fair view of the SGL Group's assets and liabilities and financial position on 31 March 2023 and operations and cash flow for the period 1 January to 31 March 2023. | Board of Directors | |
| Further, in our opinion, we find that the management commentary contains a true and fair statement of the development in the Group's activities and financial situation, the result for the period and financial position and that the Management's commentary describes the significant risks and uncertainties faced by the SGL Group. | Henrik von Sydow <i>Chairman</i> | Allan Dyrg |
