

MALAYSIA

Did you know that Malaysia has, in total, 65,877 kilometres of highway roads?

65,877 km is actually more than 1,5 times around the Earth (40,075 kilometres)!

“All roads lead to Rome,” as the proverb goes; however, in Malaysia, we can ship your cargo to wherever in the world its required. Via our network of roads, rails, access to sea ports and seven international airports across Malaysia, whatever your destination, we always find a way.

It’s integral to our daily way of doing business to focus on possibilities, not limitations. Therefore, our local experts know how to navigate the maze of logistical challenges to deliver your cargo via the fastest and most reliable route. That’s why many large semiconductors companies from USA and Japan rely on our services here in Malaysia.

To support international business activities better, goods and services are duty and tax-free in 27 Free Trade Zones across Malaysia. Are you operating in Malaysia as a branch of a foreign corporation? Don’t worry. A ‘Non-Resident’ status is available to provide the same benefits.

Coupled with our ISO 9001, ISO 14001, and ISO 45001 certifications, our experienced staff are ready to help optimize your activities in and out of Malaysia.

Let us help give your business the edge over your strongest competitors!
